Job Description

We are seeking a motivated and enthusiastic Software Intern to assist our development team. This internship offers an excellent opportunity to gain hands-on experience in software development, web development, and problem-solving within a collaborative and innovative environment.

KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY
Deemed to be University U/S 3 of the UGC Act, 1956

Software Intern in Data Engineer

Key Responsibilities

- Build and maintain data pipelines (ETL processes) to collect, transform, and load data
- Work with large datasets using Python, SQL, and Spark
- Clean, process, and validate raw data for analytics and reporting
- Develop scalable solutions on cloud platforms (AWS/GCP/Azure)
- Collaborate with analysts, data scientists, and product teams
- Monitor data workflows and fix issues in pipelines
- Ensure data quality and reliability.

Required Skills

- Python (must-have) – for data processing and scripting
- SQL (strong knowledge) – for querying and data manipulation
- Basic understanding of Apache Spark / PySpark
- Knowledge of ETL concepts (Extract, Transform, Load)
- Familiarity with any cloud platform (AWS / GCP / Azure)
- Understanding of databases (relational and NoSQL basics)

Good to Have (Not Mandatory)

- Hands-on project experience with data pipelines
- Exposure to tools like Airflow, Kafka, or similar
- Knowledge of data warehousing concepts
- Git or any version control system experience

Skills

Strong analytical and problem-solving skill.

What We Offer:

- Hands-on experience with real-world projects.
- Mentorship from experienced developers.
- A collaborative and supportive work environment.
- Opportunities for professional growth and development.

Software Intern in Full Stack Developer

Key Responsibilities

- Develop and maintain frontend applications using JavaScript, React or Angular
- Build backend services using Node.js or Java
- Design and integrate REST APIs
- Work with SQL and NoSQL databases for storing and retrieving data
- Collaborate with cross-functional teams (design, product, QA)
- Debug issues across the stack and improve application performance
- Use Git for version control and team collaboration

Required Skills

- Strong fundamentals in JavaScript
- Basic knowledge of React or Angular
- Understanding of backend development using Node.js or Java
- Knowledge of REST API concepts
- Familiarity with SQL or NoSQL databases
- Basic experience with Git

Good to Have (Not Mandatory)

- Hands-on project experience (college, internships, personal projects)
- Understanding of web concepts (HTTP, browser behaviour, APIs)
- Exposure to deployment or hosting applications
- Basic knowledge of cloud platforms

Skills

Strong analytical and problem-solving skill.

What We Offer:

- Hands-on experience with real-world projects.
- Mentorship from experienced developers.
- A collaborative and supportive work environment.
- Opportunities for professional growth and development.

About Us:

KFin Technologies is a leading provider of comprehensive solutions for the financial services industry. We are committed to innovation and excellence, and we are looking for a talented Software Intern to join our dynamic team.
